The diagram features a central orange circle with the text 'Three Key Advantages' inside. Three green lines radiate from the right side of the circle to three separate orange callout boxes. Each box has a title in white bold text and a descriptive paragraph in black text. The boxes are arranged vertically and have a tab-like top edge.

Three Key Advantages

Superior mobility

With a compact, stylish design, complex and dynamic environments can be easily navigated.

In-store marketing

A robot with a large ad display for delivery and reception, show your ads to a wider audience at a higher frequency.

A versatile all-rounder

Meeting a wider range of needs with improved adaptability, safety and accuracy, and an ultra-long battery life.

A minimize clearance at **55 cm**, KettyBot is specially designed for complex and dynamic environments.

Powered by PUDU Slam algorithm, KettyBot supports laser slam and visual slam dual solution simultaneously in order to adapt to more scenarios.
2* RGBD depth camera, provide KettyBot with the strongest 3D perception.
Intelligent route planning, the optimal route to perform tasks is selected based on the operating environment.

Test Video: Clearance and 3D Perception Test

18.5" Large Ad Display

- The 18.5" large ad screen can display promotional materials in the customized zone, providing a more eye-catching approach for marketing.
- Centered ad display perfectly adapts to the customer's angle of view, while maintaining the design aesthetic of the robot.
- With a high-power speaker, KettyBot is not only attractive to adults but also to children, making it ideal to impress the whole family.

Customized Advertisement

- PUDU Business Management Platform offers the flexibility to customize the content presented on the ad display.
- Once you have added materials and created ads as desired, you can generate a playlist indicating for how long, how many times and in what order the ads are to be played, and then publish it to the robot.

A Versatile All-Rounder

A Versatile All-Rounder

Two Forms for Greater Versatility

KettyBot features two forms enabled by the removable trays and rear cover*. This gives the robot more flexibility to perform every task in the best way possible.

*The rear cover needs to be purchased additionally.

A Versatile All-Rounder

Customer Attraction

AI voice interaction

- The new voice interaction module integrates 360° sound localization.
- Exclusive situational dialogues with cutting-edge echo cancellation, noise suppression, and reverberation elimination technology.

Greeting & Escorting

- The rear cover of KettyBot features a minimalist, streamlined design that makes it more compact.
- With autonomous path planning, the robot can lead customers to their tables in the best possible path, providing improved customer experience and reduced waiter workload.

A Versatile All-Rounder

Multiple Delivery Modes

Multi-table Delivery

Multiple tables can be served in one run with accurate positioning and optimal path planning. Achieve more with less!

Birthday Mode

KettyBot can deliver birthday cakes accompanied by the birthday song, giving customers a strong sense of happiness and satisfaction.

Cruise Mode

KettyBot can cruise in specific areas to provide customers with free snacks, drinks and promotion sheets.

A Versatile All-Rounder

Ultra-long battery life for all-day-long service.

- Battery Capacity: 25.6Ah
- Battery Life: >8h
- Automatic Recharging: KettyBot automatically provides a voice alert and UI notification when the battery is low, and returns to the docking station* simultaneously.

*The docking station needs to be purchased additionally.

Product Parameter

Machine Dimension	460×440×1120mm
-------------------	----------------

Machine Weight	36kg
----------------	------

Carrying Capacity	30kg
-------------------	------

Battery life	>8h
--------------	-----

Cruise speed	Max 1.2m/s
--------------	------------

Charging time	4.5h (Automatic Recharging)
---------------	-----------------------------

Battery capacity	25.6Ah
------------------	--------

Obstacle negotiation height	Max 7mm
-----------------------------	---------

Crossing width	≥55mm
----------------	-------

Climb angle	≤5°

Success Cases

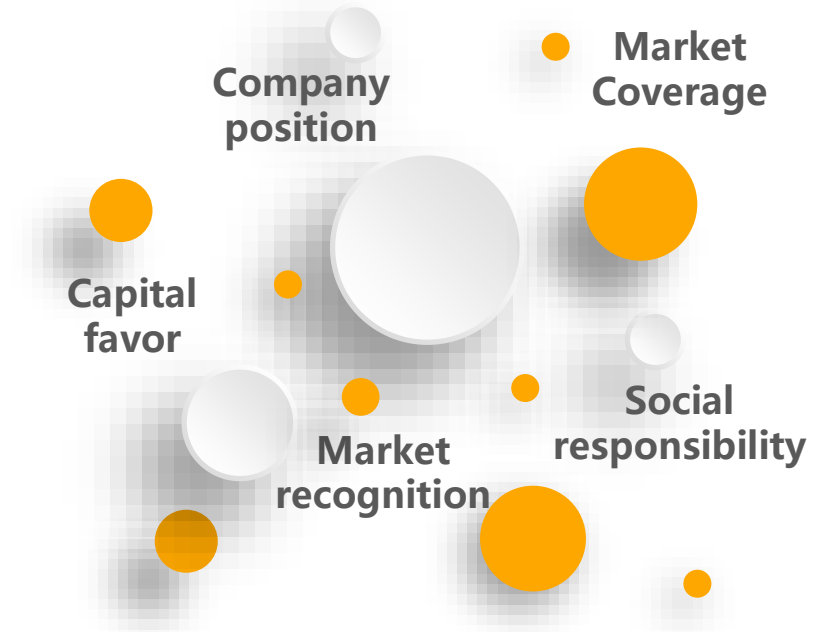

Customer Value

A great brand is as important as a great product because the brand adds value to the product in every aspect from brand influence, technical expertise to after-sales service.

Brand Influence

- A word-leading enterprise of commercial service robots
- Pudu' s products are sold in more than 60 countries and 600 cities
- Raised several rounds of financing
- 8000+ clients covering such as catering, hospital, hotel, factory, government hall
- Contributed to COVID -19 in over hundreds hospitals in China

Choose Pudu

Technical Expertise

Pudu Robotics has applied for more than 600 core patents, of which invention patents account for more than 60%.

PUDU SLAM

- The PUDU SLAM multi-sensor fusion algorithm is based on Lidar, camera, RGBD, encoder, IMU etc.
- Support function in complex & dark environment.

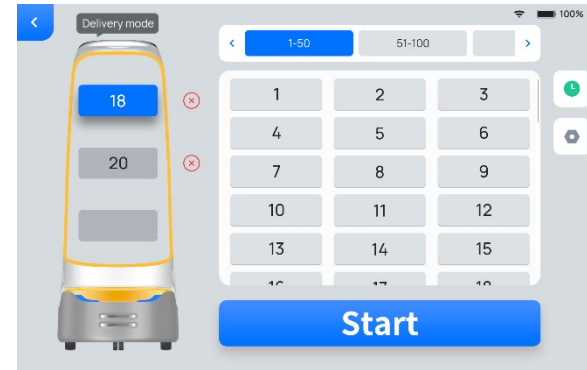

Choose Pudu

PUDU SCHEDULER

- Dispatch 100 robots easily in 1 environment.
- Strong ad hoc network.
- Adapt to complex scenarios including crossing, roundabout.
- Strong dispatch ability comparable to subway and highway.

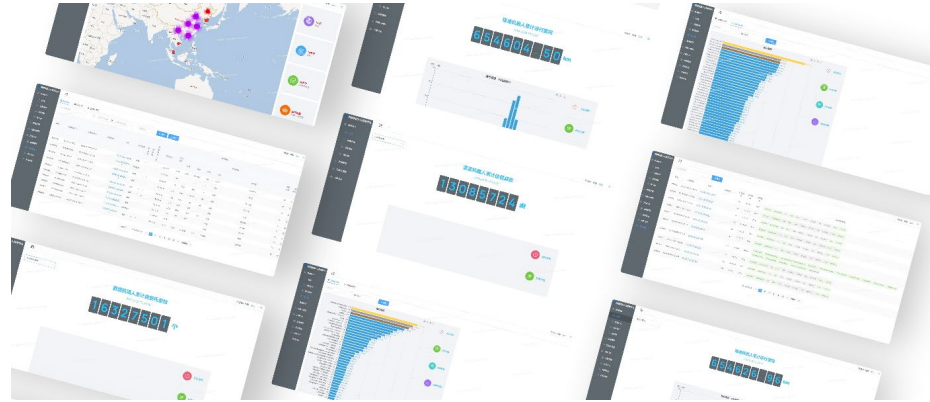

PUDU MIR

- IoT- Pudu IoT is able to count up business data in real time, monitor robot operation, and remote upgrade robot software.

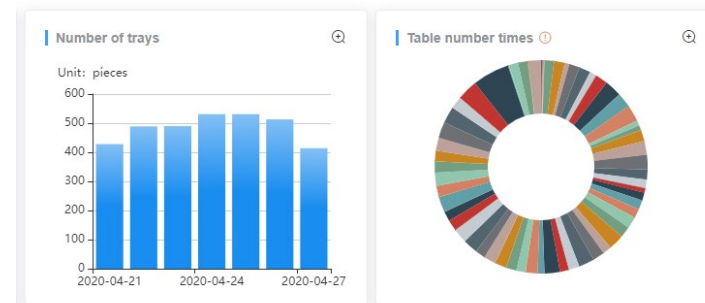

Choose Pudu

PUDU Platform

- Upload delivery data in 7x24 hours, making digital management for restaurant much easier
- Connect all the robot with IoT and PUDU Platform, which allows to collect real-time data, monitor operation of robot, upgrade software remotely and solve over 95% fault remotely

Choose Pudu

Friendly, Convenient, and Professional

Effective After Sales Service

Remote technical support offered up to 12 hours a day, 7 days a week.
IoT services: Solve over 90% technical issues online

Customer Value

A differentiated experience to attract more customers

KettyBot redefines customer experience with an eye-catching way to attract customers and a smart, thoughtful way to serve them.

A novel approach for in-store marketing

KettyBot allows your marketing campaigns and special offers to reach more customers, delivering a higher conversion.

Robot-human collaboration for improved service and efficiency

Human workers collaborate with KettyBot in a way that they can both do what they are best at. The result is higher efficiency and uncompromised service quality.

Manpower shortage is no longer a problem

Multiple delivery mode can well assist stores in completing tasks such as food delivery , and delivering snacks. This frees up human workers for other tasks, addressing the shortage of manpower.
